

The Mad Scientist & Debbie Banana

This fun, interactive and attention grabbing assembly is sure to keep the attention of children ages 5-14. Fast paced and full of surprises, **Debbie Banana** teams up with **Bobbie Banana** and **The Mad Scientist** *POWER* up some convenience foods that are sure to impress everyone.

Music, video, power tools, Bobbie Banana and dynamic Deb will keep the kids and teachers alike in awe! Debbie Banana and her friend Bobbie Banana will teach your students what is actually in that box of yellow macaroni and cheese. Kids and teachers alike will be on the edges of their seats. 5-A-Day will be the mantra of your school students. That's 5 fruits or veggies a day.

When the kids leave this assembly they will understand the difference between whole food and processed foods. They will be invited to take action and become willing to make better food choices. Your students will be asking their parents to cook from scratch and purchase foods with less non-food additives.

Invite Deb & Bobbie Banana to your elementary or middle school assembly and she will change the way your students and staff think about the foods they eat.

Your student body absolutely deserves the benefits of this fun, exciting, off-the-wall presentation. This is not your typical boring assembly. I promise!

Presented by Deb Bixler, *Health and Prosperity Coach*
